THE CHINA MAIL.

HONGKONG, TUESDAY, JAN. 28, 1879.

THE revenue of this Colony is likely to wax exceedingly fat on opium and Chiefs. spirits. It is estimated that from the former source we shall derive \$205,000 per annum, and from the latter at least \$100,000. Considerable credit is certainly due to Mr Hennessy for raising the receipts for the Opium Farm from \$132,000 per annum to \$205,000. It was discovered in the time of former governors, as Mr Hennessy asserted, that the Colony was not receiving nearly as much as it ought from the Farm; this fact was, indeed, pointed out by a Commission appointed in the time of Sir Arthur Kennedy, but to Mr Hennessy belongs British troops will cross the frontier. the credit of having taken active and successful steps, with the assistance of Messrs. May, Ryrie, Keswick, Lowcock, and Price, to give practical effect to the opinion of the Commission. 873,000 | The delivery of the English Mail was begun. per annum forms an important addition at 11 yesterday evening.

to the revenue of Hongkong.

There was something particularly gratifying also in the way in which the price paid by the present Farmer, who, judging from his final tender (\$201,000) up. Had not the representative of Mr Ban Hop appeared on the scene, it is questionable if the Government would have succeeded in increasing the revenue from the Farm much beyond its old and Co.) that the P.M.S.S. If Mr Ban Hop can pay \$205,000 for the Farm, and still shipped. make a handsome profit from the monopoly, as seemed to be opinion in the Council he can it is a matter for hearty congratulation that the existing Farmer made the faux pas of not finally sending in a tender at least equal to that of the successful competitor. There is no doubt that the present monopolist has made sufficient out of the monopoly to render his losing it at the recent competition a matter

has passed into the hands of a British subject—one whom the Chief Justice was kind enough to recommend as an exceedingly intelligent, sensible, and, as he believed, honourable man. We trust that Mr Ban Hop will prove himself worthy of these encomiums, and, at the expiration of the term for which he has secured the monopoly, exhibit a readiness to advance the price, say another

The amount of revenue obtained from

spirits in 1877 was \$28,000. His Excellency stated at the meeting of the Legislative Council when the Estimates for 1879 were brought forward that, were a Spirit Farm established, they ought to be able to obtain from such a source of revenue \$100,000 or more. It came out incidentally at the last meeting of the Council that a Bill was being prepared to enable a Spirit Farm to be established, and probably at the next meeting of the Council it will be brought forward for the first reading. His Excellency does not propose to confine the operations of the Farm to Chinese spirits, but to follow the course adopted in Singapore, and bring foreign spirits within the provisions of the scheme as well. There need, it seems, be no qualms of conscience at this Colony deriving a large revenue from spirits, because we have the assurance of His Excellency that the operations of the Farm will prove advantageous to the consumer as well as to the colonial treasury. Referring to the proposed Spirit Farm in the Council in October last Mr Hennessy said: "We have in this Colony large numbers of sailers and others who at this moment drink very bad and nominally very cheap spirits. One effect of the Spirit Farm would be to increase the revenue. but another effect would be to establish some check on the deleterious spirit now sold; so that the legislation I contemplate and, perhaps, with your sanction, may succeed in passing, will not only increase our revenue, but will benefit the consumer likewise." Some proceedings at the Police Court a short time previous to the delivery of the above remarks certainly justified the assertion that sailors and others were in the habit of drinking very bad, and nominally very cheap, spirits, and if the legislation contemplated by Mr Hennessy will result in the supplying of seamen and others with liquors somewhat superior to the veux cogniae rendered notorious on the occasion in question, we think the most susceptible of Christians will be inclined to slur over the fact that the Governor of this Colony is rubbing his hands over the prospect of making \$100,000 per annum out of the manufacture and sale of the drinks which do inebriate and develope in the unguarded a certain attachment for the gutter.
